

SterileMOUSE®

Antibacterial Laser Mouse

Prevent Cross Infections by upgrading to the SterileMOUSE-LASER Antibacterial Mouse

The dangers of cross infection are not only reserved for keyboards?

A computer mouse can be used many times by multiple medical staff members throughout the working day.

SterileMOUSE-LASER Antibacterial Mouse is a fully sealed, laser diode optics IP68 compliant product that can be washed or wiped with antibacterial/alcohol based agents "Chlor-clean" or equivalent products (often used in hospital environments) thus greatly assisting in reducing cross infections in all clinical areas. SterileMOUSE-LASER Antibacterial Mouse is comfortable to use and easy to clean.

Key features/benefits of the SterileMOUSE-LASER:

- A stylish design and comfortable shape, rugged and water resistant, made of 100% silicone latex free.
- Silicon body impregnated with nano silver anti-bacterial component.
- Rubberised surface for cushioned comfort.
- Precise smooth cursor movement.
- Laser Diode Optics. 800 dpi optical sensor with 3,000 frames per second scan rate.
- Can be cleaned with antibacterial, alcohol based agents. Can also be cleaned with "Chlor-clean" or equivalent products often used in hospital environments.
