Modular Storage

Agile Infinity

Stability and flexibility

From shelf to all-rounder
Storage, preparation, work

Agile Medical's innovative, high-quality aluminium product is a flexible system that expands easily to different widths and depths. Combined with a wide range of accessories, this is a versatile storage system that satisfies all requirements.

100% **compatible**

Create your ideal
**storage and logistics environment**

Infinite possibilities
A personalised storage system

Agile Infinity

Stability and flexibility

The flexible shelf system is designed according to the add-on principle. Start with the base unit and add any number of extensions to it – now or later.
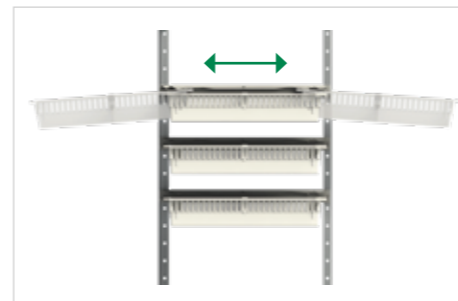

Load-bearing capacity up to **400 kg** per column

The slide with "3 in 1" function

Easy to insert, the multifunctional slide offers **3 options:**
– straight pull-out
– hinging down
– passing through

The integrated pull-out stopper prevents modular trays from falling out.

ClipOn effect
Clip on easily and adjust the height with no effort. No tools necessary.

From individual column to complete workspace

All Agile Infinity components are easy to put together, providing you with a perfect logistics concept.
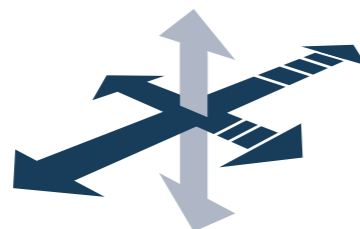

Expand as desired: theoretically infinite

Create the optimum storage system for you, no matter how complex your needs are: choose from two standard depths, various heights, and a variety of widths.

A wide variety of dimensions for greater flexibility

| Heights	Sizes
905 mm	300 x 400 mm
1225 mm	400 x 400 mm
1545 mm	600 x 400 mm
1920 mm	900 x 400 mm
	300 x 600 mm
	400 x 600 mm
	600 x 600 mm
	900 x 600 mm

Everything in its place
Storage shelves

"Space and time" – probably the most precious aspects of work today. **Agile** Infinity puts both these aspects at the top of the list. The proof? Agile Medical has guaranteed up to 30% more of each for more than 25 years.

The slide tilts at 25 degrees, making work comfortable and convenient, and providing an excellent overview of stored products despite the height. Products are easy to remove even when they might otherwise be hard to reach.

Shelves
For bulk goods and heavy loads in suitable widths and depths.

Support systems
Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be equipped with ISO modular trays, shelves, and pull-out shelves.

Labelling options
Labels and label holders in different sizes and colours, for any inventory management system – compatible with QR codes, bar codes and RFID.

ISO modular tray system
Available in three heights, the standardised ISO modular trays, combined with the flexible dividers, save up to 30 % space when storing any medical supplies and medicines.

Castors
The castor diameter of 50 mm makes our shelves easy to move around on a temporary basis (e.g. for cleaning purposes). Larger 100mm castors are available for highly mobile scenarios.
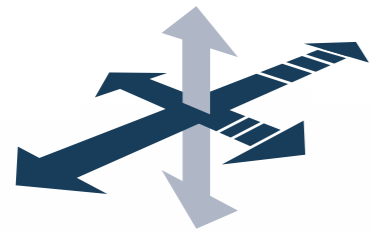

Adjustable feet
Stable and height-adjustable to compensate for uneven floor surfaces.

Finding instead of searching
Storage shelves

With 2 standard depths and a variety of widths, medical supplies can be stored in a clearly arranged and space saving manner. Combined with shelves, modular trays and drawers, this space saving solution works storage miracles.

Optimal storage
and flexible expansion

Ideal working conditions
Keep your products clearly sorted, stored safely, and within easy reach. This saves both time and space! Coupled with our comprehensive labelling system, you can minimise errors while boosting efficiency.

With ISO modular trays for medicines, phials, and small parts

With pull-out shelves and drawers

Modular Storage

Adding individual components to the **Agile** Infinity allows you to accommodate any logistics process and optimise operations time efficiently.

For a free demonstration of our RFID asset tracking and stock management solutions **please call 01472 266 190** to arrange a free demo!

The slide tilts at 25 degrees, making work comfortable and convenient, and providing an excellent overview of stored products despite the height. Products are easy to remove even when they might otherwise be hard to reach. ISO modular trays, shelves with sliding dividers or bins are also easily interchangeable.

Worktops
Integrated work surfaces help you optimise your work processes, for example when preparing medicines.

Pull-out shelves
You only need one finger to move the pull-out shelves and create some valuable space – the integrated stopper ensures safety.

ISO modular tray system
Available in three heights, the standardised ISO modular trays, combined with the flexible dividers, save you space when storing any medical supplies and medicines.

Labelling options
Labels and label holders in different sizes and colours, for any inventory management system – compatible with QR codes, bar codes and RFID.

H+H support systems
Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be enlarged using ISO modular trays, shelves and pull-out shelves.

Castors
The castor diameter of 50 mm makes our workstations easy to move around on a temporary basis (e.g. for cleaning purposes). Easy to attach and to remove.

Adjustable feet
Stable and height-adjustable to compensate for uneven floor surfaces.

Multifunctional all-rounder
Workstations

Saves both space and time!
Thanks to our flexible **Infinity** workstations, tasks such as preparing medicines, scanning products, and writing can be effectively tackled. Customised to suit your needs through individual configuration.
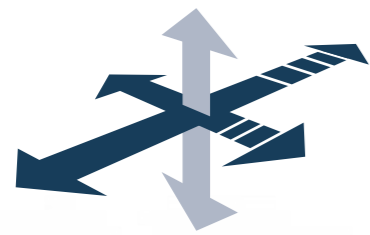

Equipped to satisfy individual requirements
Optimum use of space and time

Creating space
Customise our workstations to meet your space requirements and make optimum use of any available room.

Agile Infinity

Unlimited possibilities
Depending on your needs and requirements, the versatile **Agile Infinity** can be tailored to fit all your individual needs.

Flexible and versatile
Anything is possible

Modular Storage

Effortless transport
Mobile storage and workstations

To ensure that ISO modular trays and exchange trays are transported effortlessly from one place to the next, our "mobile stations" boast sturdy castors that can negotiate any obstacle.

Worktops
With their sturdy, jointless design, they provide the perfect surface for (un)wrapping goods or simply placing products on them.

Handle
Comfortable handle for moving our "mobile stations" easily.

Drawers
High-quality aluminium drawers on smooth-running full extension runners. Partitioned with our flexible sliding dividers, they create 30 % extra space.

Support systems
Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be enlarged using ISO modular trays, shelves and pull-out shelves.

Shelves
For bulk goods and heavy loads in suitable widths and depths – of course you can also use the shelf dividers.

Castor
Maximum manoeuvrability and easy to move thanks to castors 80 mm and 125 mm in diameter. The stop mechanism ensures that the system remains secure when motionless.
