## MODULAR STORAGE

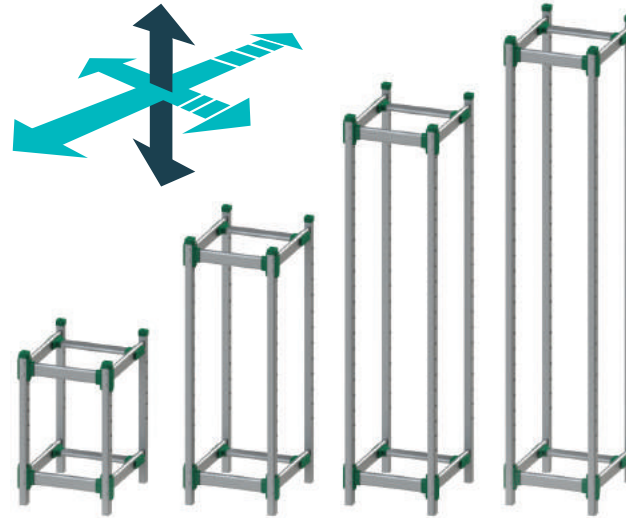

Save time and space with the innovative Agile Medical modular storage solution. The flexible system, made from high-quality aluminium, expands easily to different widths and depths to clearly sort and safely store all required items within easy reach. Combined with a wide range of accessories, this is a versatile storage system that satisfies all requirements.

### Features:

- Personalised storage system with infinite possibilities
- From shelf to all-rounder for storage, preparation and work
- Compatible with comprehensive labelling system for increased efficiency and reduced errors.

# Infinity Modular Storage

## Stability and flexibility

The flexible shelf system is designed according to the add-on principle. Start with the base unit and add any number of extensions to it – now or later.

Load-bearing capacity up to **400kg per column**.

Expand as desired:  
**theoretically infinite**

## A wide variety of dimensions for greater flexibility

Create the optimum storage system for you, no matter how complex your needs are: choose from two standard depths, various heights, and a variety of widths.

Heights:	Sizes:	
905mm	300 x 400mm	300 x 600mm
1225mm	400 x 400mm	400 x 600mm
1545mm	600 x 400mm	600 x 600mm
1920mm	900 x 400mm	900 x 600mm

## HTM71

As standard, each column contains an equal combination of 600x400x100D (mm) ABS Baskets and 600x400x200D (mm) ABS Baskets. Other modules are available, as indicated over the page.

Adjustable Feet included as standard; castors are available as indicated on **page 172**.

### Trolley Depths:

**Type A, AA and AAA:**  
642mm

**Type B, BB and BBB:**  
442mm

## MHD

### The mobile shelving system by Agile Medical.

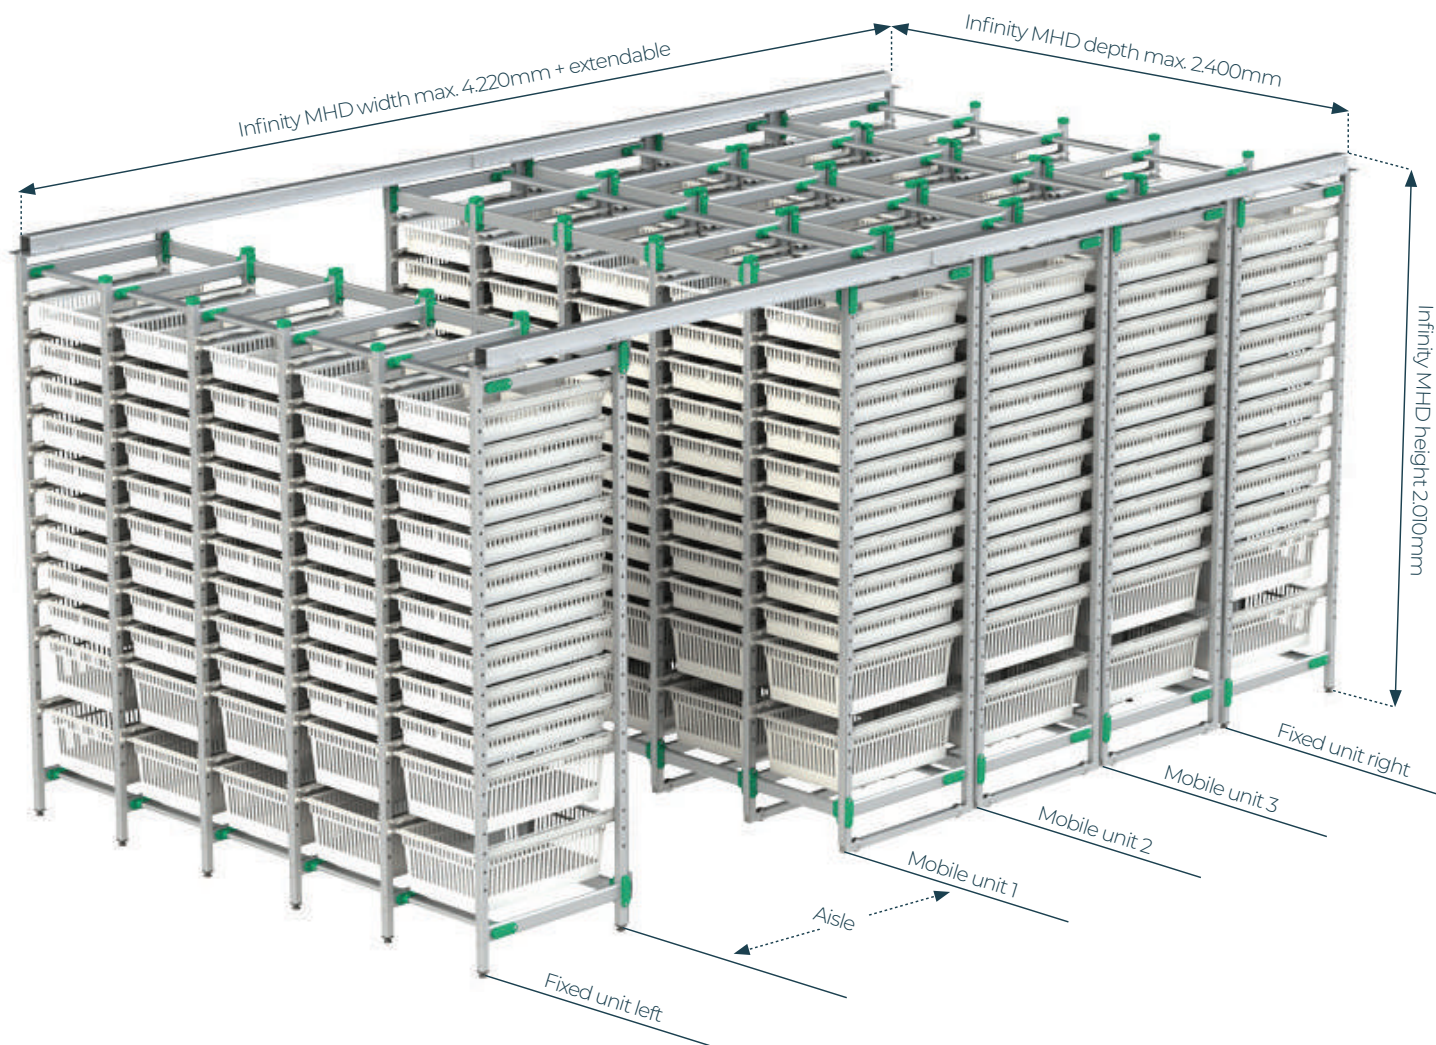

Maximum flexibility and great space savings – fully accessible without floor rail.

#### Features:

- Lightweight construction – stable aluminium
- Pass-through feature – workflow from both sides
- Add on to existing Infinity or individual solution
- Only 1 aisle necessary for 5 shelves
- All mechanical – no need for electricity
- No need for floor fixation.

# Infinity MHD

## Free choice of accessories

Equip your Infinity MHD with the ISO modular tray system.

## Endless possibilities

We plan your customised shelf according to your wishes.

## Designed for flexibility.

**Agile Medical's innovative, high-quality aluminium product is a flexible system that expands easily to different widths and depths.**

It is specifically designed for safe and protected storage of sterile containers, with options of wire shelves for lightweight items and pull-out support runners for heavier items.

### Key benefits:

- Protective anodized aluminium construction
- Adjustable pull-out shelves to accommodate all sizes of sterile container.

### Dimensions:

#### Static Single Bay:

Width (mm) 394, Depth (mm) 642, Height (mm) 1940

#### Static Double Bay:

Width (mm) 737, Depth (mm) 642, Height (mm) 1940

#### Mobile Single Bay:

Width (mm) 394, Depth (mm) 642, Height (mm) 1996

#### Mobile Double Bay:

Width (mm) 737, Depth (mm) 642, Height (mm) 1996
