

IT Wall Mounts

Innovative IT support.

The perfect solution for clinical environments such as Critical Care and Theatres where there are often space constraints. Agile Medical wall-mounted products are designed for a range of PCs including AIOs, Thin Clients and large monitors for easy visibility of vital statistics.

IT Lift System

Each unit, designed for use with flat panel monitors has a short distance to wall, retractable keyboard tray and is height adjustable by 30cm. A side fed cable management system organises cables and guarantees optimal cleaning and disinfection.

Features:

- Available in Dual Screen – ILS-02
- 5 year warranty
- Monitor adaptation: VESA75/100
- Distance to wall keyboard folded up: 100mm
- Distance to wall keyboard retracted: 490mm
- Max load monitor adaptation: 18kg.
