MODULAR STORAGE

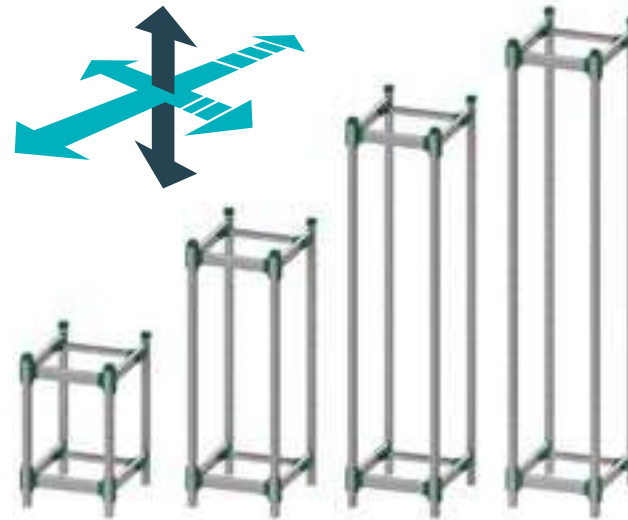

Save time and space with the innovative Agile Medical modular storage solution. The flexible system, made from high-quality aluminium, expands easily to different widths and depths to clearly sort and safely store all required items within easy reach. Combined with a wide range of accessories, this is a versatile storage system that satisfies all requirements.

Features:

- Personalised storage system with infinite possibilities
- From shelf to all-rounder for storage, preparation and work
- Compatible with comprehensive labelling system for increased efficiency and reduced errors.

Stability and flexibility

The flexible shelf system is designed according to the add-on principle. Start with the base unit and add any number of extensions to it – now or later.

Load-bearing capacity up to **400kg per column**.

Expand as desired:
theoretically infinite

A wide variety of dimensions for greater flexibility

Create the optimum storage system for you, no matter how complex your needs are: choose from two standard depths, various heights, and a variety of widths.

Heights:	Sizes:	
905mm	300 x 400mm	300 x 600mm
1225mm	400 x 400mm	400 x 600mm
1545mm	600 x 400mm	600 x 600mm
1920mm	900 x 400mm	900 x 600mm
